# Compact Stars in the QCD Phase Diagram III

[www.astro.iag.usp.br/~foton/CSQCD3/index.php](http://www.astro.iag.usp.br/~foton/CSQCD3/index.php)

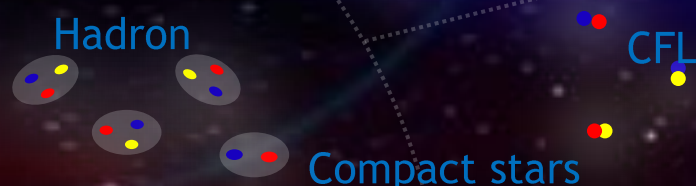

Bringing together scientists working on cold matter at supra-nuclear densities, this event is the third in a series of productive meetings that began in 2001. It is meant as a venue for scientist to present the latest results on the field, and to stimulate the interaction of participants with their peers from around the world. The main topics cover from neutron stars to quark stars, quark matter, quark stars and QCD phase diagram.
